

# Kamel Beliazi

Kamel is Senior VP Crop Strategy Horticulture for the Crop Science Division at Bayer. He focuses on positively impacting society by helping develop new technologies and solutions that contribute to solve the challenges the world faces today and in the future.

With over 20 years of experience working in crop science, Kamel has extensive knowledge of agricultural markets around the world. He is an accomplished leader who combines broad people leadership and a customer focus with strategic portfolio and P&L responsibilities with a proven track record in successfully growing businesses, transforming cultures and processes through mergers, acquisitions or transformational projects.

He has held strategic and operational life science positions on multiple continents, having the opportunity to work in several countries including France, Germany, Canada, Mexico, Vietnam and Portugal.

Kamel holds a degree in Business Administration and Management from L'Institut Agro Montpellier.
